MERN Stack | AI Automation |AI Agent

Professional Summary

Results-driven Full Stack Developer, AI Automation Engineer, and Prompt Engineer with 2 years of hands-on experience in developing scalable web applications, AI-powered solutions, and automated workflows. Proficient in MERN Stack, React.js, Next.js, Node.js, Express.js, MongoDB, JavaScript, Python, and Selenium. Experienced in Prompt Engineering, Generative AI, LLM integration, RESTful APIs, browser automation, authentication, database management, SEO optimization, and server deployment. Skilled in deploying production-ready applications on Vercel, Render, Railway, Netlify, and Digital Ocean, including domain and hosting configuration. Strong understanding of responsive development, performance optimization, technical SEO, Git/GitHub, debugging, and clean, maintainable code, with a focus on building secure, scalable, and high-performance web and AI automation solutions.

Experience

Automation Engineer & MERN Stack Developer **Oct 2024 - Present**

9JOBS Application Services, Delhi

- Develop and maintain the 9JOBS corporate and job-services website, building responsive, user-friendly interfaces and scalable application functionality using modern full-stack technologies.
- Build and enhance Modern Property, a real-estate website featuring responsive property-focused interfaces, reusable components, optimized layouts, and modern UI/UX.
- Develop full-stack web applications using React.js, Next.js, Node.js, Express.js, MongoDB, JavaScript, HTML5, CSS3, and REST APIs, covering frontend, backend, database, and deployment workflows.
- Apply Prompt Engineering techniques to create, test, refine, and optimize structured prompts for AI-assisted development, content generation, automation, debugging, and workflow improvement.
- Design and integrate RESTful APIs, authentication flows, database operations, form handling, validation, and reusable application components.
- Optimize websites for responsive design, performance, SEO, cross-browser compatibility, maintainability, and mobile usability across desktop and mobile devices.

Projects

LinkedIn Automation Job Applier System **Oct 2024 -Apr 2025**

Tech Stack: Selenium, Web Driver, Chrome Driver, Python

- Automated 500+ LinkedIn job applications using Python and Selenium WebDriver, eliminating hours of manual searching, form filling, and resume uploads.
- Built an end-to-end workflow covering job search, filter selection, resume upload, and application submission with minimal manual intervention.
- Implemented exception handling and retry logic to manage dynamic page elements, pop-ups, and unexpected form fields, improving run reliability.
- Optimized scripts using explicit waits and Chrome Driver configuration, reducing failed submissions and keeping sessions stable across long runs.
- Designed reusable, configurable scripts job titles, locations, and filters, so the bot could be adapted to different search criteria without code changes.

AI Rover - Resume Builder **May 2025 – Sep 2025**

Tech Stack: React.js, Python, AI Integration

- Developed an AI-powered, ATS-friendly resume builder using React.js and Python, used to generate 30+ professional resumes with dynamic content and customizable templates.
- Integrated AI-based suggestions to optimize resume content, improving keyword relevance and overall application readiness.
- Built a responsive, modern UI with multiple resume templates, allowing users to edit sections and preview changes in real time.
- Implemented ATS-compatible formatting and resume parsing to ensure clean, machine-readable output across job.
- Designed reusable React components for resume sections education, experience, skills, projects to keep the codebase modular and easy to extend.

9JOBS – Corporate & Job Services Platform **Nov 2025- March 2026**

Tech Stack: React.js, Next.js, JavaScript, Node.js, REST APIs, Responsive UI

- Developed and maintained a modern corporate website for a job-application services business supporting recruitment and employment-related workflows.
- Built reusable and responsive UI components, job-search interfaces, service sections, navigation elements, forms, and mobile-friendly layouts.
- Improved website usability, visual consistency, responsive behavior, performance, and cross-browser compatibility.
- Integrated frontend functionality with APIs and optimized application components for maintainability and production deployment.

Modern Property – Real Estate Web Platform **May 2026 - Present**

Tech Stack: React.js, Next.js, JavaScript, REST APIs, Responsive Design

- Developed a responsive real-estate web platform designed to showcase property-related information through a clean and professional interface.
- Built reusable property components, responsive page layouts, navigation, forms, search-oriented interfaces, and mobile-friendly UI elements.
- Implemented modern frontend architecture with emphasis on performance, SEO, responsive web design, accessibility, and user experience.
- Optimized components and application structure for maintainability, scalability, and deployment across modern web platforms.

Skills

- **Languages:** JavaScript, Python, SQL, HTML5, CSS3
- **Frontend:** React.js, Next.js, React Native, Tailwind CSS, Bootstrap, Framer Motion
- **Backend:** Node.js, Express.js, REST APIs, API Integration
- **Database:** MongoDB, MongoDB Atlas
- **Version Control:** Git, GitHub
- **UI/UX:** Figma, Google Stitch, Responsive Design
- **Deployment:** Vercel, Render, Railway, Netlify, Digital Ocean
- **Authentication & Integrations:** Clerk, Supabase, DocuSign, Stripe, Google Sign-In
- **Automation:** Selenium, Chrome Driver, Web Scraping, Browser Automation
- **Tools & Concepts:** Postman, Debugging, Testing, Performance Optimization, SEO, Cross-Browser Compatibility
- **AI & Prompt Engineering:** Prompt Engineering, Generative AI, AI API Integration, Prompt Optimization, AI-Assisted Development.

Education

- **Master of Computer Application** Galgotias University – Greater Noida **July 2022- June 2024**
- **Bachelor of Computer Application** Integral University Lucknow **June 2019 - July 2022**

Certificates

- Microsoft Azure
- Advanced Mern Stack with Generative AI
